For President,
ABRAHAM LINCOLN,
OF ILLINOIS.

For Vice President,
HANNIBAL HAMLIN,
OF MAINE.

AT LARGE:
WALTER D. MAINDORF, of Marathon;
BRADFORD RIFORD, of Winnebago.

W. W. Vaughn, of Racine.

J. Allen Barber, of Grant.

H. Lindeman, of Johnson.

A Republican Convention for the Second Congressional District in the State of Wisconsin, will be held at the city of Janesville, on Wednesday, the 23rd day of August, 1900, at 12 o'clock M., for the purpose of nominating a candidate for members of Congress of said district, to be supported at the next general election. Each assembly district will be entitled to two delegates to said convention.

The several assembly district committees are requested to take measures for the appointment of delegates to said congressional convention, from their respective districts.

DAVID ATWOOD,
CHARLES HOLM,
JOHN A. KAPLAN, Dist. Com.
J. C. CHANDLER,

Madison, June 25, 1900.

The Republican Convention for the assembly district composed of the towns of Rock, Plymouth, Magnolia, Spring Valley, New York and Avon will be held at the village of Onondaga, on SATURDAY, the 18th day of August, 1900, at 2 o'clock P. M., for the purpose of choosing two delegates to represent said district in the Congressional Convention, to be held at La Crosse, on the 23rd of the same month. Each town will be entitled to its usual representation.

ORRIN GUERNSEY,
R. B. BENT,
R. MOTT, Dist. Com.

Rock, July 16th, 1900.

Elections are to be held in North Carolina, Missouri, Arkansas and Kentucky in the month of August. Full tickets are in the field for state officers in each, but only in Missouri is the division line very distinctly drawn between the friends of Breckinridge and Douglas. There is also a state election in Kentucky on the 6th, for clerk of the court of appeals.

Missouri will choose a Governor and state officers and seven congressmen on the 6th. Four candidates are in the field for governor—Hancock Jackson, Breckinridge democrat; Claiborne F. Jackson, Douglassite; Sample Orr, know nothing or union; and James B. Gardener, republican. The democratic convention held previous to the Charleston convention, nominated C. F. Jackson for Governor. He has been supporting the state for several months. Having recently declared for Douglas, the national democrats held a convention and nominated Hancock Jackson. The vote for governor, however, will be no test of the relative strength of the democratic and Douglas parties in Missouri, as Senator Green supports C. F. Jackson on the ground that he stands squarely upon the platform erected for him by the convention that nominated him. Mr. Green, it will be remembered, is an enthusiastic supporter of the Breckinridge ticket.

The vote of Missouri for several years has been as follows:

| | Dem. | Opp'n |
|------------------|--------|--------|
| 1850—President | 57,964 | 45,323 |
| 1857—Governor | 47,975 | 17,641 |
| 1858—School Supt | 64,278 | 30,894 |

There is quite a number of gentlemen in the field for congress, representing all shades of politics. In some districts the democrats and Douglassites are running two candidates.

The following are the names of all the candidates, as far as we have ascertained:

First Dist.....J. Richard Barrett, dem.

F. P. Blair, Jr., republican.

A. Todd, opposition.

Second Dist.....John B. Henderson, Douglas.

Jas. A. Rollins, opposition.

Third Dist.....John B. Clark, Douglas.

R. H. Mercer, Breckinridge.

M. C. Hawkins, opposition.

Fourth Dist.....E. H. Norton, Douglas.

John Scott, opposition.

H. H. Brauch, republican.

Fifth Dist.....John W. Reid, democrat.

E. T. Mitchell, opposition.

Sixth Dist.....John S. Phelps, Douglas.

C. W. Price, Breckinridge.

Jas. S. Raines, opposition.

Seventh Dist.....J. W. Noel, Douglas.

Charles Jones, Breckinridge.

In Arkansas the contest will be for governor and congressmen. The following are the candidates:

Governor—Richard M. Johnson, regular democrat; and H. M. Rector, independent democrat.

Congress—1st dist., Edward W. Gault, regular democrat; Dr. Wm. Mitchell, independent democrat. 2d dist., Thomas C. Hindman, regular democrat; C. N. Cypert, independent democrat.

The several candidates are canvassing the state. Every democratic paper in the state, as far as heard from, supports Breckinridge, and we believe all the candidates.

North Carolina votes for governor and members of the legislature. The candidates for governor are John W. Ellis, the present incumbent, democrat, and John Pool, opposition. The vote of the state two years ago was, Ellis, democrat, 56,222; McRae, independent, 29,965. Gov. Ellis has declared for Breckinridge.

Mr. Pool is for Bell and Everett. The result will test the strength of the latter ticket in the south.

In Kentucky the only state officer to be elected is a clerk of the court of appeals in place of R. R. Hewitt, deceased. The candidates are Leslie Combs (Bell-Everett), H. B. Bolling (Douglas), and Clinton McClary (Breckinridge).

The Great Eastern excitement is on the increase. The directors will probably reconsider their determination to sail for England—at least as soon as was contemplated.

The year of each election refers to the time of counting the electoral votes, and not to the time at which they were given.

At the first four elections, no person was named for Vice President. Two persons were voted for by each elector; and the person having next to the highest number of votes, was elected Vice President.

1793—NUMBER OF ELECTORS, 69.
Geo. Washington, Va. 39 John Rutledge, S. C. 4
John Adams, Mass. 24 John Hancock, Mass. 7
John Jay, New York 9 George Clinton, N. Y. 3
R. B. Harrison, 1 All others, 2
Three states, viz: New York, entitled to 8 electoral votes, Rhode Island 3, and North Carolina 7, did not vote at this election.—The first had not passed an electoral law; the last two had not yet adopted the constitution.

1793—NUMBER OF ELECTORS, 135.
George Washington, 32 George Clinton, 15
John Adams, 13 Thomas Jefferson, 12
John Jay, 9 John Rutledge, 4
John Hancock, 3 John Jay, 2

All others, 1

1801—NUMBER OF ELECTORS, 138.
Thomas Jefferson, 73 Chas. Cotesworth Pinckney, 6
John Adams, 35 John Jay, 1
All others, 1

The two highest number of votes being equal, the election devolved upon the house of representatives. Mr. Jefferson was chosen on the twenty-sixth ballot. Before the next election the present mode was established by the adoption of the 12th amendment to the constitution. That article provided that each candidate shall be specified, and the office named to which it is proposed to elect him.

1805—NUMBER OF ELECTORS, 176.
For President, 162 George Clinton, 16
Thomas Jefferson, 12 Rufus King, 1

John M. Van Burskirk, of Lansingburg, New York, has been arrested and held to bail by a United States Marshal, for assisting in the rescue of the slave Nalle at Troy, some time ago. The assistance rendered, according to the indictment, consisted in standing up in his carriage and saying he would give two hundred and fifty dollars to see the man rescued. There are indictments against other gentlemen for similar expressions of sympathy with the negro, and the United States officers show an evident disposition to be ugly and raise an excitement.

HARD HITS.—Senator Green of Missouri, in a recent speech at St. Joseph, dealt the "little giant" some pretty severe left-handed blows, as follows:

"He entertained John C. Breckinridge because he had never traveled up and down the river on the decks of a steamboat, and drank lager in order to gain popularity with the vulgar rabble; he had never sent hired letter writers all over the country to puff himself into notoriety, and cry down the telegraph to his never represented and misrepresented every other prominent man in the party; and finally, he supported him because he was the only man who had any chance of defeating Lincoln. No southern state would, under any circumstances, cast her electoral vote for Douglas, and he did not believe he could get a single northern state."

A TEN MILE TROT FOR TEN THOUSAND DOLLARS.—The prize money has been arranged for a ten mile trotting race, to take place over the Cincinnati trotting park, during the next two weeks. The race is made by Mr. Bidwell of this city and a gentleman of Portsmouth, Ohio, whose name we were unable to learn, the stake being fixed at ten thousand dollars a side. Mr. Bidwell will enter his mare "Gipsy Queen" against any other horse which the other party can produce on the track in three days. A very large forfeit was put up, and there seems to be no doubt but that the race will take place. If it does, it will be the first ten mile race ever trotted in this vicinity, and will as a matter of course attract a great deal of attention.—*Cincinnati Gazette*, 28th.

A stage driver between Henderson and St. Peters, Minn., has been arrested for robbing the mails. His depredations are said to amount to several thousand dollars.

From Collingwood we learn that on the 16th inst., a terrible and desolating storm passed through the adjoining townships of Osprey. It swept everything before it, completely destroyed all vegetation, burying the crops several inches deep in the earth, uprooting and carrying off whole forests of trees, carrying away houses and barns, and making a complete wreck of every thing generally for a surface of two miles in width and several in extent. Hail stones fell measuring from six to twelve inches in circumference, killing fowls, and seriously injuring the live stock. Some of the cattle were missing immediately after the storm, and at last accounts could nowhere be found. The amount of damage done to property is immense. Fortunately no person was killed.

In Tioga county, New York, near Oswego, a terrific hail hurricane made frightful work eight or ten days since, destroying windows, gardens, orchards, &c., killing fowls and animals, and making havoc generally. A correspondent vows that hail-stones fell as large as his two fists doubled together, and that after the storm deep snow was visible all over the buildings where the hail had fallen, and that the cattle were covered with bumps as large as a bowl, where the hail had struck them.

Nowalk, in northern Ohio, and also the towns of Mantua and Hiram in Portage county, in that state, were visited by a destructive hurricane on Thursday last, stripping woods, orchard, gardens and farms, and causing a great deal of damage.

On the 19th inst., a violent and destructive tornado passed through Delaware, Randolph, Fayette and Rush counties, Indiana, smashing timber, corn, cutting wheat fearfully, uprooting buildings, decapitating chimneys, and prostrating fences. The loss to farmers is very heavy. This is the fourth severe storm that has visited various parts of Indiana this season.—*Chicago Journal*.

A CHANCE TO DWELL IN MARBLE HALLS.—A chance seldom met with is now offered to some enterprising Yankee of means, to reveal in the halls of the Montezuma, one of the German barons, kings and knights of the medieval ages. A castle is advertised for sale in the German papers which was erected over twelve centuries ago, and around which cluster reminiscences of feudal barons, in the early history of Germany. This is the ancient castle of Meersburg, situated on Lake Constance, in the present Grand Duchy of Baden. It is to be sold by the heirs of Baron Von Laessberg, who died in 1855, and is one of the oldest, finest and most remarkable specimens of architecture in southern Germany. German poets have described in verse its origin and romantic situation, and German historians cannot overlook its claims without doing injustice to some of the most prominent personages of the medieval times.

The old castle was erected upon a rock, and was built by a count, from the town, and connected with the latter by means of a drawbridge. The oldest portions are the square tower, which is forty feet in thickness, and a wall which commences near the draw; both are of Franco-German architecture, and tradition relates that the tower was constructed by King Dagobert the First, about the year 630 to 638, and was originally designed for a lighthouse. In subsequent ages the castle has been owned by different and distinguished families, and has had all the additions, but the old tower is still standing. At present the old castle is vacant and looking for an owner who will preserve it from ruin. Its situation is one of the most picturesque that can be imagined. In front are the waters of Lake Constance, and beyond the Swiss Alps, the summits covered with perpetual snow, on either side and to the rear is a landscape of surpassing beauty, comprising valleys and mountain slopes, fertile farms and vineyards, and interspersed with villages and farmhouses.

These splendid castles, when sold, usually bring a price far below their apparent value. There are several instances of similar medieval structures purchased for a mere song, and we know of one instance in which a French gentleman of very moderate means bought a baronial castle, with seventeen acres of land, for the sum of three hundred dollars. Seven hundred were spent in fitting up, and the purchaser now occupies it in a princely state. It is not to be supposed that the Meersburg castle will be sold for anything like this, but it will be likely to go off at a sacrifice.

"FRAT BARNES"—Under this head the Springfield Republican has the following sound and true:

"A somewhat extended observation and a solitary experience have convinced us that first babies have a hard time. Parents must have two or three children before they know what a baby is, know how to treat it, and acquire patience to treat it properly. The poor little fellows that have the misfortune to come along first, have to educate parents to their task, and in the process they get spanked, and shamed and abused. After a man has had three or four children he learns that whipping or striking a child less than two years old, is a barbarism. We know one 'paternal head' who struck his first child when only six weeks old, and he actually believed that the child knew better than to cry, and that he stopped crying that particular time because he struck him. We carry certain notions of children and of family government into married life, and the first child is always the victim of these notions. And not alone of these, for the parents have not learned self-control, and a baby is whipped quite as often because the parent is impatient or angry, as because it is vicious or intractable. We inflict on our first children the floggings we ought to have for our own impatience and fretfulness. This pounding children before they become, in God's eye, morally responsible beings, is very strange business. Patience, good people, and governing power! Don't wait to learn it until you or your little ones shall be hidden under daises."

The Chicago Journal gives the following account of a terrible accident, caused by whiskey, in an iron foundry:

Yesterday afternoon while the workmen at Russell's foundry, corner of Halsted and Kinzie streets, were employed in casting, one of their number, who was said to be intoxicated, spilled his ladle of molten iron in such a manner as to pour it into the boots of another workman who stood by him. The agony of the burn caused the second man to drop his ladle, the scolding contents of which fell upon the man who had charge of the crane. He let that fall, and in an instant the molten fluid spread throughout the shop, severely burning some twenty workmen, and setting the shop on fire in several places, which, however, was soon extinguished. Some of the workmen were horribly burned in the breast and legs—but none of them fatally.

Five thousand Republican Wide-Awakes, from Cleveland, Ohio, have signified their intention to visit Detroit, Mich., to hear Senator Seward, when he speaks there. One of the Detroit papers adds:

"We have reason to believe, also, that the Wide-Awakes from nearly all the large towns in Michigan will be on hand with their republican brethren from the Buckeye state and Detroit, giving Gov. Seward such a reception as the public ball such a state as shall be worthy of both the man and the cause."

PARIS, July 19.
The Monitor says the Sultan has addressed the following letter to the Emperor on the 16th of July:

"I have at heart that your majesty should know with what grief I have learned the events in Syria. Let your majesty be convinced that I shall employ all my powers for establishing security and order in Syria; that I shall severely punish the guilty parties, whoever they may be, and render justice to all in order to leave no doubt of my government. I have entrusted that important mission to my minister of foreign affairs, with whose principles your majesty is acquainted."

LONDON, July 19.
It is reported in Paris that the French government have received a communication from St. Petersburg, expressing the desire of Russia to act in accordance with France and England in the east. The Russian cabinet reiterates its opinion that the recent events now transpiring in the east, hold in suspense the peace of the world, and that the very existence of Turkey is at stake.

The Pays seems to imply that more measures are in contemplation, and that the ex-citers of the disturbances in Syria have ramifications with other parts of the Ottoman territory; that the events in Syria were only the prelude to a formidable rising of the Ottoman population against the Christians, and the sinister projects are stated to have been long since concerted by fanatical conspirators.

HALIFAX, July 28.
There are more visitors in town than was expected. The city is in a steady overflow. No important incident has occurred, except that the Prince will land at 11 o'clock on Monday. The Governor has proclaimed Monday and Tuesday holidays, but the telegraph offices will be kept open for the purpose of forwarding messages to the associated press.

WESTCHESTER, July 28.
An immense and enthusiastic mass convention of republicans was held here yesterday, and was addressed by Messrs. Curtin, Hickman, and Campbell. In the evening there was a brilliant torch-light procession with fireworks, by the Wide-Awakes of Westchester, Philadelphia and neighboring towns. Speeches were made by Messrs. Carey, McKee, Richey, Coffey, and Mr. Chessman of California. It was the first republican demonstration ever witnessed in this county.

NEW YORK, July 31.
Fowler's buildings on Nassau street, between Fulton and Ann, were partially destroyed by fire last night. Loss \$30,000, of which Charles Vinigan, printer, lost \$10,000. Strong, publisher, \$10,000. Noonan, stationer, \$5,000. Building owned by Rogers & Taylor, damaged \$10,000. Several other tenants suffered.

FROM SAN FRANCISCO.
St. Louis, July 31.
The news received by express of the double democratic nominations at Baltimore perplexed democrats more than ever; party organs hesitate to support either ticket for fear the other may prove the strongest one. The federal officials nearly all support Breckinridge. Salutes have been fired for Douglas, and then for Breckinridge, by the partisans of each, in every principal town in the state. Probabilities favor the nominations of two electoral tickets by the two wings of the party.

At a Douglas ratification meeting called at San Francisco, ex-Gov. Wells, Archibald C. Peachey, Gen. McDowell and other state supporters of the administration, are announced as speakers.

The San Francisco Herald was the only democratic organ which gave support to Douglas the day after his nomination was received, but orders from the custom house, where the main support of the paper is derived, seemed to have forced silence for the present.

Two companies of overland emigrants from Michigan arrived at Carson Valley within the week, having passed over the Indian invested portions of the route without loss. One company numbering 42 persons, from Kalamazoo, had a fight with the Indians and were whipped them. All arrived in excellent health.

Many people are leaving Visalia, a south-eastern border town, for the newly discovered silver mines near Owen's Lake on the eastern slope of the mountains, 200 miles south of the Washoe mines. At last accounts 300 men had arrived at these mines, and a rich silver bed and quartz yielding 1000 per ton had been discovered. The steamer Pacific has arrived with later Oregon, Washington and British Columbia news.

Oregon dates July 13th—Four companies of United States troops were dispatched to the country east of the Cascades to protect settlers against Indians. Capt. Smith's company while marching toward Honey Lake, was attacked by over 300 Indians, armed with guns and bows and arrows. The fight lasted nearly an hour. Several Indians were killed.

Gen. Harney arrived by the Pacific. Later by the barque Carrie Leland which arrived here on the 16th of July from Kenogawa, Japan. We have intelligence from that quarter to 23d of May. The Leland brings an assorted cargo of Japanese notions and general merchandise. A package of documents from the Emperor of Japan to the embassy at Washington, was received by its arrival which will be transmitted to its destination by the next steamer for the east. The news is meagre. Every thing was quiet at Kenogawa, but the interior of the country was in a disturbed state. It was the Prince Regent who was assassinated by the adherents of Prince Mutsu. The act was committed within the walls of the Regent's palace. The assassins had all been captured. The tycoon is represented to be very liberal to foreigners, for this reason he encountered the ill will of Mezas.

The bark Onward is daily expected to arrive with dates from Kenogawa to the 6th of June.

The democracy of California are divided. With the bulk of the party all is unsettled. The leaders not having received their cue it is impossible to predict how the state will go until there is further developments.

The Snake Indians are manifesting hostile disposition.

An election has been held in Washington territory for members of the legislature. Returns only received from Corvallis county, electing two republicans by 30 majority. This county has always heretofore been largely democratic.

Dates from British Columbia state that a new gold mining region has been discovered in Lenelle county.

Mining news generally extremely favorable.

THE MARKET.
New York, July 31.
Flour more active. 3,065,10 for super state, 3,065,30 extra state to super western, 3,065,35 medium to medium extra western, 3,065,35 super to good shipping western, extra 1 H. H. Flour more steady, 3,065,40. Wheat about 1 cent higher, rather more export demand. 1,22 Milwaukee club.

THE WAY THEY ESTIMATE THE DOUGLASS STRENGTH.—Daniel S. Dickinson accounts for the popularity of Douglas, as claimed by his friends, in the following way.
Some fathead men descending the Mississippi, in a rather jolly mood passed a house on the shore where they were fiddling and dancing on the piazza—the boat fell into an eddy and once in each half hour passed the house again, and the boatmen swore they were fiddling and dancing in every house for a half a mile on the shore of the river, while they had been revolving in an eddy and had seen but one. The Douglas strength is estimated in the same way.

The recent great meteor was plainly seen up the Collingwood.

LOCAL DEPARTMENT.

Thermometrical Table.

Table with 4 columns: Date, Barometer, Thermometer, Wind. Data for July 20, 21, 22.

THE WEATHER AND THE HARVEST.—It seems as if a special providence has thus far guarded the present harvest. With perhaps the exception of a few late sown fields, where the berry ripened a little too fast to be fully developed, every variety of grain has been exempted, to a remarkable degree, from all the casualties which, to a greater or less extent, lessen the yield or impair the quality.

DISCHARGED.—The two men arrested for robbery last week were discharged this morning. Their further examination had been postponed until to-day, and when they appeared in court the district attorney declined to prosecute any further, as there was no evidence against them to warrant a commitment for trial.

WOOD'S MINSTRELS.—Lapping's Hall was crowded to hear these minstrels. They gave unqualified satisfaction, and highly pleased all who heard them. With the exception of the jig, an entire new bill is offered to-night. There is "a quarter's" worth to be had, and no discount, and the entertainment is not marred with the vulgarities we have heard in other similar exhibitions.

RETURN OF ENGLISH HUNTERS.—A party of English hunters, titled Britishers at that, have reached St. Paul, Minnesota, after a successful hunt at Devil's Lake and on the Red river. Among their trophies are buffalo hides and heads, elk, four magnificent American eagles, &c. They assert that the water of Devil's lake is almost as salt as that of the ocean, a fact not generally known.

The Druses.

Who are these murderous people?—is in everybody's mouth, at this time.

The latest and best authorities trace them to the eastern confines of Syria. They are Arabs, and settled in Lebanon and Anti-Lebanon within the last nine hundred years.

"Syria," says the reliable Dr. Thomson, "who wrote from a twenty-five years' residence and travel in that country," has always been cursed with a multiplicity of tribes and religions, which have split up the country into small principalities and conflicting classes—fruitful parent of civil war and anarchy and confusion."

The Lebanon region contains 400,000 inhabitants; living in some 600 towns, villages and hamlets. Zahleh, just destroyed, was the largest town, and contained 11,000 people. The other towns which have fallen before the sword of the Druses, are Deir el Kamer, 7,000; Hasbaya, 6,000; and Rashaya, 2,500. The entire population lives in towns and villages, and go out into the fields to cultivate them.

There is no homogeneous community of peoples in Syria. Every tribe lives apart and hates each other with a hearty hate. The two Moslem sects excommunicate each other. Both hate the Druse, and all three detest the Nussairiyeh. The Maronites love nobody and nobody loves them. The Greeks despise the Catholics, and all sects look down with contempt on the Jews.

Except the Jews and the Bedouin Arabs, no tribe can trace back its origin to an ancient race. The Moslems are a mixed race, derived from the people of the Greek empire at the time of Mohammed. In the nominal Christian sects there is the same blending of races, and a large infusion of European blood, during the time of the Crusades. Dr. Thomson thinks that they are the "inseparable debris of the accursed Canaanites."

Dr. Thomson's theory does not comport with that of Dr. Alexander H. Stephens of Georgia, for he does not black the Metuwies, a class of dirty Arabs who joined the Druses in their late crusade against the Christians, are very much like the Jews, and claim to have come from Persia. There is a large infusion of Egyptian blood in the Moslems from Carmel southward. Dr. Thomson thinks that their peculiarities are to be traced back to the old Philistines, who, according to his theory, came from Egypt, and not from Cyprus, as is commonly thought. He finds traces in Lebanon of the original Phenicians.

In short, the people of Syria answer completely to the prophecies respecting them—they are a "people divided, meted out and trodden down."

DECEASED.—The wife of J. E. Messmore, died at their residence, in La Crosse, on Wednesday evening, after a brief illness. Mr. Messmore came to our city with his family, from Mineral Point, some two years ago. During that time, no one has been more highly prized in our social circles, than his lovely, accomplished and most estimable wife. Two children of rare, sunny beauty like their sainted mother, remain—La Crosse Union.

ALL SORTS OF PARAGRAPHS.

DURING a recent violent thunder storm the lightning killed a man, and his wife and child, near Perryburg, Miami county, Ind. One child escaped.

A brute in human shape residing in Marshall county Ind., has been in the habit of maltreating his child shamefully. Last Sunday, while he was beating it with a large ox gad, a company of citizens entered his house, took the ox gad from him and whipped him with it so severely that he was compelled to take to his bed.

On the 20th inst., as Corwin Carley, a son of Mark Carley, Esq., of Urbana, in this state, was out hunting chickens on the prairie, in company with a young man named Graybill, he accidentally received the contents of Graybill's gun in his breast, which caused his death on the following day.

EPIDEMIC AMONG THE FISH.—We are informed that large quantities of dead fish are cast upon the shores of Winnebago Lake, down toward Neenah and Menasha. Among them are all kinds of fish found in the lake and river. It is a very singular thing, and entirely unaccounted for so far as we know.

Mrs. Susan Decatur, widow of the Commodore, died on the very same day with Mr. Gales of the National Intelligencer, with whom a life-long intimacy and friendship had existed.

Heenan is reported to have let himself for \$25,000 to give sparring exhibitions for three months.

Four out of every five Generals of the U. S. Army are southerners, and two of them from Virginia.

Hon. Jefferson Davis is at West Point, with his family.

Mrs. Swisshelm, the strong minded, is lecturing about the country, as her advertisement states, for the benefit of her creditors.

Her subject is the financial history of her married life, illustrating the laws which govern the relation of husband and wife, as they have been handed down to us since the days of Alfred the Great.

The powerful speech of Hon. John Hickman in Philadelphia, showing up the political trickery of Mr. Douglas, has produced a profound sensation, and will have great effect upon the canvass in Pennsylvania.

The Waukegan Gazette says 650 bushels of currants have been shipped from that place for Chicago the present season, and 2,000 gallons of currant wine made.

It is rumored with some shadow of truth, that Mr. Everett will withdraw his name as a candidate for vice presidency, on the ground that he is unwilling to be made a party to the intrigue on foot to elevate Joe Lane to the presidency.

Breakinridge and Lane are supported by ex-President Pierce and his cabinet, by every democratic United States senator except Douglas and Pugh; by every democratic governor except two, and by ninetieths of the democratic papers in democratic states. The Philadelphia Argus says such an array of facts "should make intellectuals tremble."

And we guess it does.

The Grand Rapids (Mich.) Eagle says there has been between one and two million pigeons shipped from that place, and the freight paid at the express office, \$3,488.97. The pigeons sold for about \$25,520.

A Solidified Milk establishment has just been started at Middleton, Orange county. It will require about 1000 gallons of milk per hour. The water (89 per cent.) is extracted from the milk by an evaporating and drying operation, which leaves an article that, by the addition of sugar, may be put in cans or papers and kept in a perfect state of preservation any length of time.

It can be eaten in a dry state, or is readily soluble on coming in contact with any fluid. Many people use it in preference to milk, because it is of necessity a purer article.

THE PEOPLE IN MOTION.—Very large and enthusiastic Lincoln and Hamlin mass meetings were held at La Harpe and Oleno, in Indiana, last week. There were about 12,000 people present at La Harpe, and a grand barbecue was served up.
